

## **Community Development Trust Working Group**

The following working group has been established which is a representation of industry stakeholders and associations, and also represents the geographic diversity of the Province.

The working group met and engaged in great discussion on issues of importance in the design of the program. The discussion and input of the working group was used to design the program, but it is important to note that the final design of the Community Development Trust resides with the B.C. Government.

This group continues to meet on a periodic basis to discuss issues that arise under this program and clarify the design of the program as is needed.
